

widerAdvance Facility - Task 3.1 internal survey

This survey is developed by FRCT, as leader of **Task 3.1 – Mapping of Synergies**, and aims to collect key information on funding opportunities and successful projects supported by EU programmes, European Structural and Investment Funds (ESIF), and national or regional instruments in each WiderAdvance Facility country or region. The objective is to identify relevant funding mechanisms, funding synergies, and gather best practices that can enhance D&E of research and innovation projects across Widening Countries and Outermost Regions.

The information collected will directly contribute to the development of deliverables under Task 3.1: *Funding Matrix (D3.1)*, *Best Practices Report on Synergies (D3.2)*.

Where relevant, follow-up meetings may be scheduled to further explore the information provided.

Thank you very much for your valuable contribution and continued collaboration!

Carolina (*on behalf of the FRCT team*).

EU Funding Programmes and Structural and Investment Funds

This section should ideally be completed by the NCPs of each participating country/region in the WiderAdvance Facility. However, other entities may also contribute, particularly those with the ability to aggregate knowledge from their respective country's/region's R&I ecosystem

9. Which EU funding programmes (excluding the European Structural and Investment Funds - ESIF) are the most significant in your country or region?
By 'significant', we mean those that have had the greatest impact, either in terms of the number of projects funded or the budget.

☐ No

25. If yes, please specify the program and name of entity and provide the link.

National Contact Points (NCPs) – Horizon Europe

26. What is the name of the entity responsible for the Horizon Europe National Contact Points (NCPs) in your country and/or region?"

Please include a general contact or website if available.

27. Please indicate the NCP responsible for the 'Widening Participation and Strengthening the European Research Area' (Widening & ERA) programme in your country/region?

Name, email, and phone (if available).

D&E Funding synergies

Funding synergies (in the context of wider Advance Facility) refer to the strategic alignment and complementary use of multiple funding sources—such as Horizon Europe, European Structural and Investment Funds (ESIF), and national or regional instruments—to support the dissemination, exploitation, and scaling of research and innovation results. Synergies aim to create an optimal policy and financial mix, helping beneficiaries access follow-up funding, maximize the impact of their Key Exploitable Results (KERs), and overcome structural disparities in Widening countries and Outermost Regions.

28. Can you identify any successful projects in your country or region where a combination of European, national, or regional funding was used to support the dissemination, exploitation, or scaling-up of research and innovation results?

Marcar apenas uma oval.

☐ Yes

☐ No

☐ Maybe, not sure

29. If yes, please provide (if available):

Project acronym and full name

- Link to project website or contact point

- Funding programmes involved (e.g., Horizon Europe, ERDF, national innovation fund, etc.)

- Please include how the combined funding contributed specifically to dissemination (e.g., communication campaigns, stakeholder engagement) or exploitation (e.g., product development, spin-offs, policy uptake) efforts

30. From your perspective, what do 'funding synergies' mean in the context of enhancing the dissemination and exploitation of research and innovation outcomes?

(share how you see synergies between EU, national, and/or regional funding being created or applied in practice)

31. Do you know of any funding programmes (EU, national, or regional) that specifically aim to support the dissemination, exploitation, or continuation of project results after the end of the initial funding?

Marcar apenas uma oval.

- ☐ Yes
☐ No
☐ Maybe, not sure

32. If yes, please list them and provide links, if available.

33. Are there any challenges at the country, regional, institutional, or individual level that hinder the identification or implementation of funding synergies?
(examples: difficulties in coordinating between funding authorities, limited information, lack of alignment between programmes, administrative barriers ...)

34. Thank you very much for your contributions to Task 3.1!
